

Forms

A form in SMART-TRIAL is what you use to specify what data you wish to collect. If applicable, you can re-use these forms throughout your study by including them in multiple data events, or save them under your profile to use in other studies.

Managing forms:

Use Forms overview to create and manage forms in your study. When you create a new form, the form will be visible in the Forms overview, offering a set of actions you can perform.

To create and manage forms, go to **[Study Name]** in the left-side menu and click on **Forms**.

Actions that can be taken on a selected form:

- **Preview** - Click the  icon to preview the form and test its appearance and functionality, see our [Preview Forms](#) article.
- **Edit** - Click the  icon to modify the form and question details.
- **Duplicate** - Click the  icon to duplicate a form.
- **Save under user profile** - Click the  icon to save the form under your user profile, making it available to other studies you have access to, see [Load form from profile](#) article.
- **Delete** - Click the  icon to delete the form from the study.
- **Print Form** - Print your form by clicking the  icon, see our [Print Forms](#) article.
